Team Meeting

12 NOVEMBER 2022 / 10:00 AM / CONFERENCE ROOM

Attendees

Bala Subra Maniyan SR, Swedha B, Tharunkumar S, Vijay S

Agenda

Last Meeting Follow-up

Saved ML model pickle file in sprint 2 would be used for the further process in web deployment.

Meeting Topic

Sprint 3 - Application Building and Evaluation I

User stories features

Notes

- Discuss about the web application that has been done and no further changes.
- The Saved ML model was integrated with a full pledged web application for prediction.
- Testing phase 1 was done successfully and resolved the issues raised (includes Performance Testing).
- Web application works as we expected and passes the testing phase 1 and is ready for the cloud deployment.

Action Items

1. Using a saved ML model file, the web application was integrated for prediction.
2. Testing phase 2 evaluation would be carried out in the next sprint.
3. Add the new features above the basic features developed in this sprint.
